Applicants submitted publications for the Examiner's consideration in an Information Disclosure Statement dated July 16, 2002. At that time, German Patent Number G 93 04 368.6 was available only in German. Applicants now wish to submit a notarized copy of a certified English translation of the aforementioned German patent. For the Examiner's convenience, a second copy of the German patent is enclosed, together with the English translation and accompanying Form PTO-1449.

This statement is not to be interpreted as a representation that the enclosed publication is material, that an exhaustive search has been conducted, or that no other relevant information exists. Nor shall the citation of any publication herein be construed *per se* as a representation that such publication is prior art. Applicants understand that the Examiner will make an independent evaluation of the cited publication.

No additional costs are believed to be due in connection with the filing of this Information Disclosure Statement. If, however, a first Office Action on the merits issues in the application
